Dear Patient,

We are still here for you. We would like to take a moment to inform you that our office remains open and we are currently continuing to take care of patients. Our top priority has always been and continues to be the health and safety of our patients and employees. We are profoundly committed to providing you with the safest, most dependable foot and ankle care possible as we continue to monitor developments associated with COVID-19.

We continue to follow stringent screening criteria and infection prevention and disinfection protocols, and we are providing other options to be able to continue to treat you while limiting your exposure to others. In addition to providing a very spacious waiting room, we are scheduling in such a way to ensure minimal exposure to others while you are in our office.

While maintaining confidentiality and security, we are also offering the option to complete and submit all necessary intake forms digitally online. You may retrieve the forms from our website at [www.wacopodiatry.com](http://www.wacopodiatry.com) or we can text or email them to you upon request.

We are now offering Telemedicine services and would be happy to schedule an appointment for you to be able to provide care to you from the comfort of your own home. This is proving to be an effective and easy option to initiate and continue your care while we navigate the COVID-19 crisis.

If you have any questions or concerns, please contact us at 254-776-6995. Thank you for putting your trust in Waco Foot & Ankle... we're committed to earning it every day.

Best regards,

Waco Foot & Ankle
